1 Notes

In order to access UNISERV Citrix Environment a client („Citrix Receiver“) need to be installed. Setup files can be downloaded at <https://www.citrix.de/downloads/citrix-receiver.html>

Please install by using an administrative account.

The screenshots in the following paragraphs derive from Citrix Receiver Setup version 4.3.100 and 4.4.1000 on Windows 7 64 Bit. Other versions may differ slightly.

2 Setup-Procedure

2.1 License Agreement

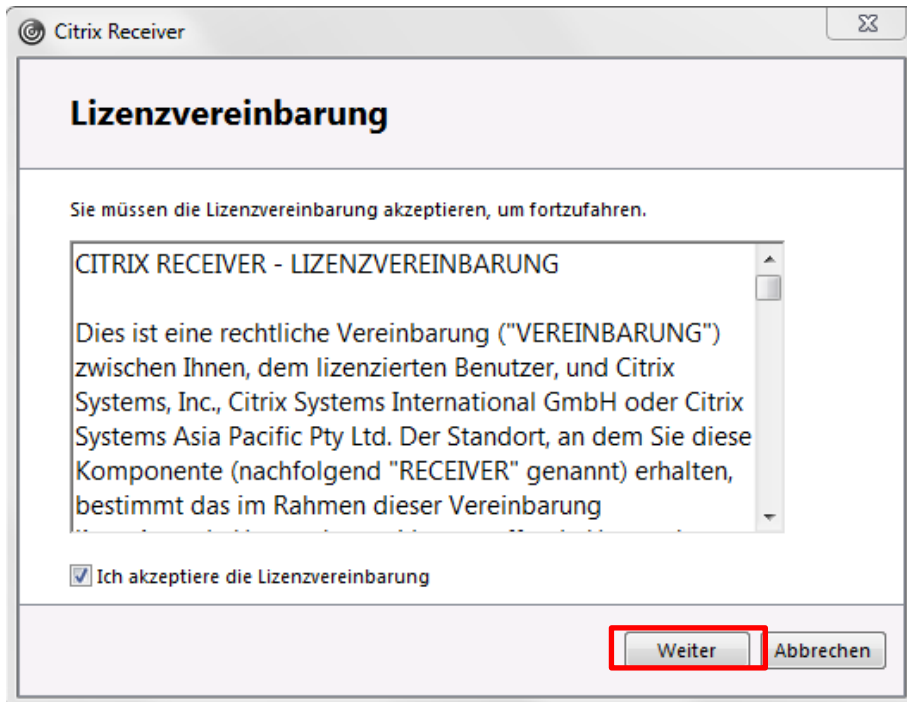

Abbildung 1 – Confirm License Agreement

2.2 Decline Usage Statistics

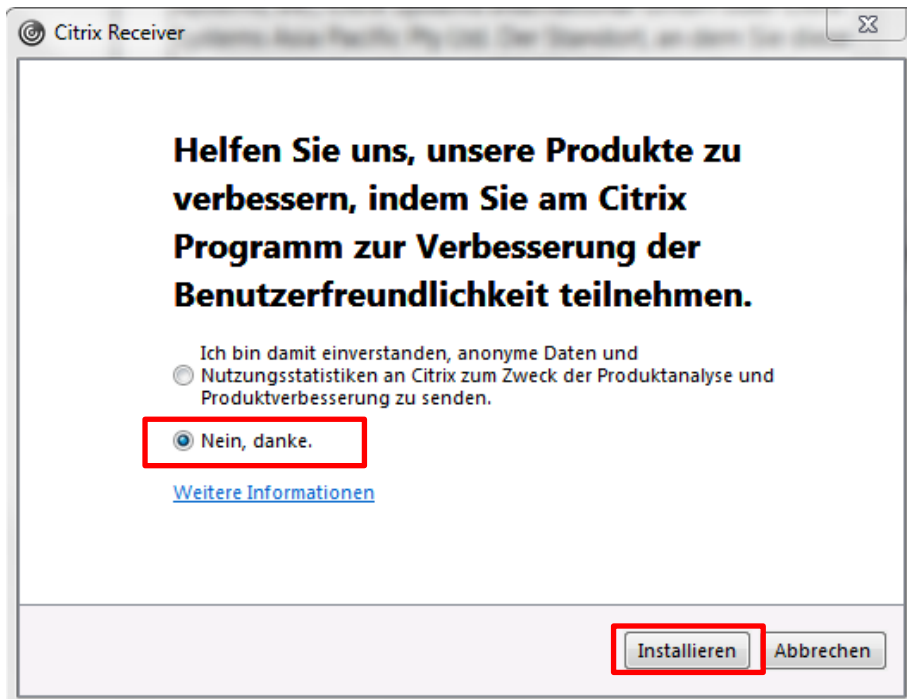

Abbildung 2 – Start Setup - don't send usage statistics to Citrix

2.3 Finalize Setup

Abbildung 3 – Finish

3 First Use

3.1 Cancel Add Account-Wizard

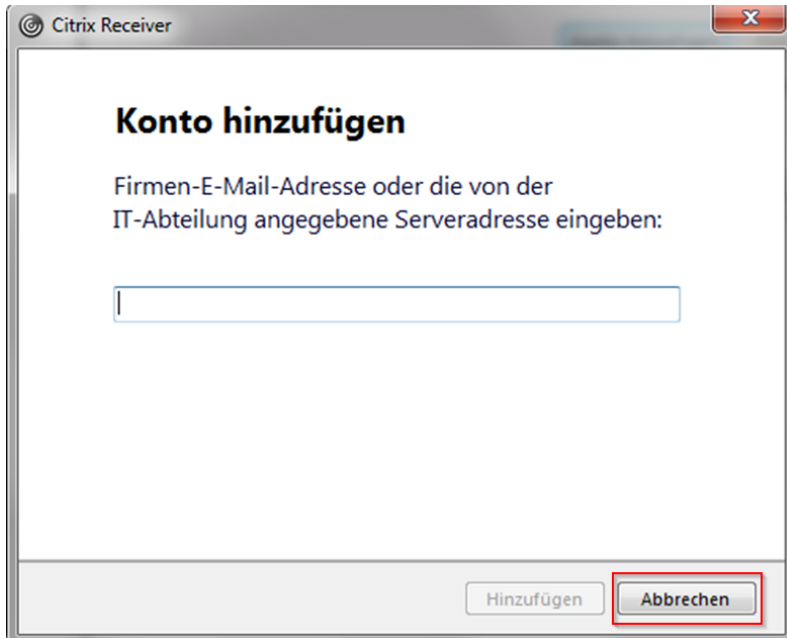

Abbildung 4 – "Cancel" to skip ad account wizard

3.2 Suppress „Add Account“-wizard permanently

The „add account“ wizard reappears after next login. By checking „Do not show this window automatically at logon“ this wizard is suppressed in the future.

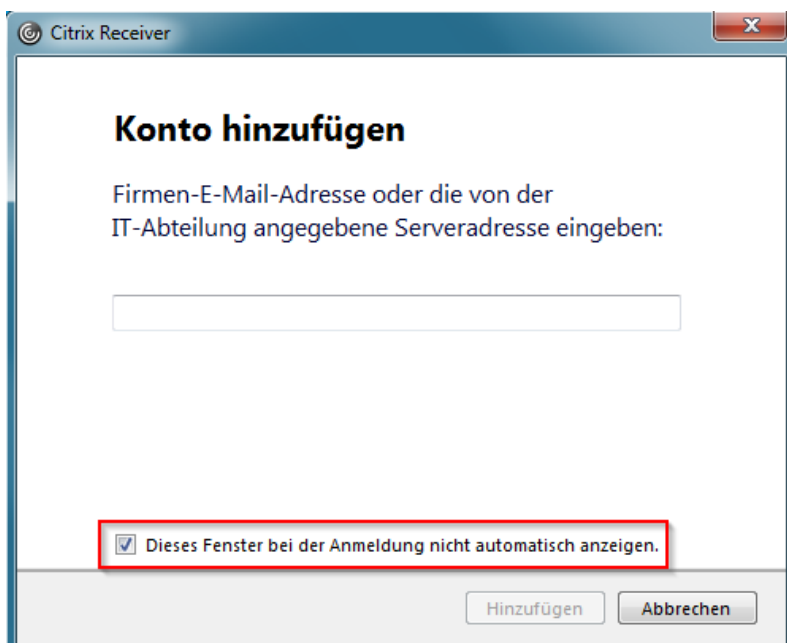

Abbildung 5 – „Do not show this window automatically at logon“.
