UPGRADE PACKAGE DQBT
SOFTWARE RELEASE 3

We update your **Data Quality Batch Suite** to the newest level and perform the entire upgrade process for you.

Maximum Support

Our experts update your DQBT to the newest level and provide comprehensive support during the preparation, planning and implementation of the migration of the new release.

Newest Features

Our Release 3 gives you access to the newest features and improvements of our solution. Thus, you can be certain that you can fully and optimally exploit the potential of your Uniserv software.

Relieve your IT Workload

Our upgrade package allows you to outsource the entire upgrade process and relieve the workload on your IT resources. Additionally, this ensures that the Uniserv software always functions reliably.

UNISERV SOFTWARE RELEASE 3

Are you still working with the Uniserv Software Release 2 or older?

We can update your Uniserv DQBT to the newest level! Our upgrade ensures that you stay on top of developments and always have access to the newest features and improvements. You can be certain of being able to fully exploit the potential of your Uniserv software.

Our software Release 3 includes improvements to the postal check, as well as numerous bug fixes.

OUR SERVICE

Our experts provide you with comprehensive support during the preparation, planning and implementation of the migration to your system. This includes a parallel new installation of the software release in the computer, as well as manual transfer of configuration data from the existing Uniserv installation. We provide:

- ✓ **Installation of the software and licence**
- ✓ **Takeover of the Jobs**
- ✓ **Check that the installation runs correctly**
- ✓ **Presentation of new features**
- ✓ **Update report**

UNISERV
