# CONSULTANT MASTER DATA MANAGEMENT (m/f)

To reinforce our Customer Success Consulting team at the Uniserv headquarters in Pforzheim we are currently seeking a Consultant for Master Data Management (m/f), for immediate appointment.

SMART IDEAS?

## SHOW US YOUR GOLDEN PROFILE

UNISERV is expert for successful customer data management. We provide support for customers such as Allianz, Deutsche Bank, eBay, EDEKA, E.ON, Lufthansa, Siemens, TUI and Volkswagen. Our team of experienced consultants and developers, together with powerful tools and proven solutions, ensure accurate and current customer data throughout the entire data lifecycle. In Pforzheim, Amsterdam and Paris 130 Golden Profiles are dedicated to ensuring that UNISERV grows continuously. If you like to push things forward, become a part and contribute to our 360°-view.

### YOUR CHANCE

- As a Consultant Master Data Management you are responsible for heading, controlling and implementing master data management projects, as well as for providing all necessary support for your team. Your focus is on migration and consolidation projects for customer/supplier data and related information
- You will design system architectures, data models and process flows
- Within the consulting team you will setup our CDH solution for Demos, Proof of Values and Implementation Projects and target Uniserv methods within the framework of your customer projects
- You provide support and advice our customers within the framework of each project and customer requirements
- You are an important player in the creation of company-wide, project-related data management solutions for our customers

### YOUR GOLDEN PROFILE

- You have completed your studies of computer science, business computing, or have similar qualifications
- You can provide proof of successful data management or data migration projects in which you have already been involved at least for 3 years
- Your work is carefully planned, targeted and success-orientated, and you are well known for your pragmatic approach and ability to provide customer orientated solutions
- You have excellent communication skills and you are a teamplayer
- You have comprehensive experience of professional enterprise data management solutions, e.g. Informatica or Talend
- You have in-depth knowledge of all aspects of data management understanding the concepts of master data, meta data, reference data and data management processes like onboarding of a customer
- Ideally you have understanding on how Data Governance can help organizations in creating single view of the customer and being compliant to regulatory requirements
- Your professional profile is rounded off with very good English and German knowledge (verbally and written), and you are prepared to undertake extensive business travelling

### INTERESTED?

If so, please send your application (including possible starting date and salary expectations) by email to [job@uniserv.com](mailto:job@uniserv.com).  
Your contact person: contact Ms Jeanette Weißgerber, tel. +49 7231 936 1043. We look forward to hearing from you!
